INSTALLATION AND MAINTENANCE INSTRUCTIONS

M500X FAULT ISOLATOR MODULE

SPECIFICATIONS
Normal Operating Voltage: 15 - 32 VDC
Stand-by Current: 450 µA (not isolating)
Maximum Current Draw: 17mA (device in isolation)
Temperature Range: 32°F to 120°F (0°C to 49 °C)
Humidity: 10 to 93% Non-condensing
Dimensions: 4 1/2" H × 4" W × 1/4" D (Mounts to a 4" square by 2 1/8" deep box)

BEFORE INSTALLING
This information is included as a quick reference installation guide. Refer to the control panel installation manual for detailed system information. If the modules will be installed in an existing operational system, inform the operator and local authority that the system will be temporarily out of service. Disconnect power to the control panel before installing the modules.

NOTICE: This manual should be left with the owner/user of this equipment.

GENERAL DESCRIPTION
M500X Fault Isolator Modules enable part of the communications loop to continue operating when a short circuit occurs on it. An LED indicator blinks in the normal condition and turns on during a short circuit condition. The module will automatically restore the entire communications loop to the normal condition when the short circuit is removed.

COMPATIBILITY REQUIREMENTS
To ensure proper operation, these modules shall be connected to listed compatible system control panels only.

NOTE: The number of devices that may be installed between fault isolator modules will vary based on the types of devices being isolated. Contact the fire alarm control panel manufacturer for the isolator load ratings of individual devices.

MOUNTING
M500X modules mount directly to 4˝ square electrical boxes. The box must have a minimum depth of 2 1/8".

WIRING
NOTE: All wiring must conform to applicable local codes, ordinances and regulations.
1. Install module wiring in accordance with the job drawings and the wiring diagram in Figure 1.
2. Secure module to electrical box (supplied by installer).
3. Terminal wire gage: 12-18 AWG.

FIGURE 1. FAULT ISOLATOR MODULE WIRING:

FAULT ISOLATOR MODULE

UL LISTED COMPATIBLE CONTROL PANEL

A PAIR OF FAULT ISOLATOR MODULES WILL DISCONNECT A GROUP OF DEVICES IF A SHORT CIRCUIT OCCURS ON THE SIGNALING LINE CIRCUIT WITHIN THAT GROUP.

GROUPS OF DEVICES ARE SEPARATED BY FAULT ISOLATOR MODULES. ANY COMBINATION OF COMPATIBLE, LISTED DEVICES MAY BE MIXED WITHIN A GROUP.

ALL WIRING SHOWN IS SUPERVISED

FAULT ISOLATOR MODULE
System Sensor warrants its enclosed smoke detector to be free from defects in materials and workmanship under normal use and service for a period of three years from date of manufacture. System Sensor makes no other express warranty for this smoke detector. No agent, representative, dealer, or employee of the Company has the authority to increase or alter the obligations or limitations of this Warranty. The Company’s obligation of this Warranty shall be limited to the repair or replacement of any part of the smoke detector which is found to be defective in materials or workmanship under normal use and service during the three year period commencing with the date of manufacture. After phoning System Sensor’s toll free number 800-SENSOR2 (736-7672) for a Return Authorization number, send defective units postage prepaid to: Honeywell, 12220 Rojas Drive, Suite 700, El Paso TX 79936 USA. Please include a note describing the malfunction and suspected cause of failure. The Company shall not be obligated to repair or replace units which are found to be defective because of damage, unreasonable use, modifications, or alterations occurring after the date of manufacture. In no case shall the Company be liable for any consequential or incidental damages for breach of this or any other Warranty, expressed or implied whatsoever, even if the loss or damage is caused by the Company’s negligence or fault. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

THREE-YEAR LIMITED WARRANTY

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
